Montgomery County's Tree Montgomery Provided Hundreds of Free Shade Trees to Residents

Tree Montgomery, developed and implemented by DEP, provides free shade trees to increase canopy coverage and raise awareness of the benefits of trees. Restoring our natural canopies improves our watersheds by reducing sediment and other pollutants into our streams, improves air quality, and provides a more aesthetic environment.

The program began this past spring. Single-family homes, businesses, multi-family properties, and homeowner associations (except in Rockville and Gaithersburg) are eligible to request free shade trees from the County. The trees planted through the program are 10-12 feet tall when installed and will grow to over 50 feet tall when fully mature. DEP provides two years of free aftercare, including watering and pruning.

For more information or to request a free shade tree go to TreeMontgomery.org.
